

## Press Release: Wave Sailing Secrets “Revealed” Instructional Wave Sailing DVD

For Sale May 1, 2006 purchase online [www.WaveSailingSecrets.com](http://www.WaveSailingSecrets.com)

Gorge-based Sailor/Filmmaker Antonio Blanco goes to the source to finally figure out what we’re all supposed to be doing when we go “wave sailing”. This DVD is dedicated to us “weekend warriors” that can’t go on a year-long tropical wave sailing vacation to “figure it out on their own” and need the answers NOW! Antonio asks the questions and gets the shots we really need from the pros that know! The Pro-Sailor line-up includes Jesse Brown, who masterfully takes us groms on a journey from “Getting out through the white water” through boosting huge Back Loops, Forwards, and Push Loops! With unique enthusiastic stoke for the sport Jesse truly reveals a wealth of tricks and tips that he had to learn the hard way. Arguably one of the most refined wave sailors ever, LEVI SIVER serves up some of the best examples of wave riding technique possible, then proceeds to dissect each critical component necessary to pull off gravity defying BOTTOM TURNS, atomic powered LIP-SMACKS, tweaked out AERIALS, and MUCH MORE! The Multi-Talented JAKE MILLER, aside from helping film and edit WAVESAILING SECRETS REVEALED, does his part in tearing up the wave faces with the best of them! Rapidly Moving up the Ranks, GRAHAM EZZY, rounds out the line-up with his prodigal riding skills and a youthful perspective on technique.

All the camera angles are covered here, including some very unique Point of View Footage! Get in the COCKPIT with JESSE BROWN as he takes you through flight school. Our man boosts 35 foot Push Loops, Back Loops, and Forwards all wearing a video camera! Unbelievable, stomach turning education like no other instructional DVD dares to show.

Wave Sailing Secrets has something for every level wave sailor from the experienced lake and bump and jump sailor that’s planning their first trip to Maui, Baja, or other wave sailing destination to the seasoned local, that’s looking for a little perspective on their big jumps. Chapters include: Getting Out, Catching Waves, Wiping Out, The Bottom Turn, The Top Turn, Smacking the Lip, Aerials, Forward Loop, Back Loop, Push Loop, Wave 360, Goiters, and More!

Much more than just another sailing DVD, Antonio Blanco has created a ONLINE community at [www.WaveSailingSecrets.com](http://www.WaveSailingSecrets.com) with instructional downloads for your iPod, PSP, or Laptop, plus a Forum to discuss your wave sailing experiences, rigging tricks, travel spots, ask questions, and post advice. Plus you can purchase the DVD directly online, with **free shipping** for a limited time. Definitely a site you want to bookmark!

Wave Sailing Secrets Revealed was filmed in Maui, Hawaii
